

## Lundi 26 septembre 2016

Aujourd'hui, c'est la Journée Européenne des Langues.

Les élèves de 3ème 1, 3ème 2 et 3ème 5 ont découvert en quoi consiste cette journée, pourquoi elle a été créée et ils ont travaillé sur l'importance de parler des langues étrangères.

Voici un lien où vous pourrez en savoir davantage :

<http://edl.ecml.at/>

N'hésitez pas à faire les différents petits jeux proposés sur le site!

Les élèves du collège peuvent aussi participer au concours proposé au sujet de cette journée. Les gagnants de ce concours seront affichés au bureau de la vie scolaire.

Enfin, afin de partager leur expérience et de convaincre l'ensemble des élèves du collège de l'importance de parler une langue étrangère, voici des textes écrits par les élèves de 3è1 et 3è2 à l'intention de tous les élèves du collège, en espérant que cela les motivera à faire de leur mieux aux cours de langues !

# EUROPEAN DAY OF LANGUAGES

## 3ème 2

Do you know the European Day of Languages ?

The Council of Europe and the European Union created that day on December 6th 2001 and it is celebrated on September 26th each year. It was created to promote the rich cultural and linguistic diversity of Europe and to encourage people to learn foreign languages.

So, why should we learn a foreign language? How can we learn easily?

It is important to learn another language than your mother tongue and you should learn one or more foreign languages. For example, if you want to travel abroad you can communicate with people and make friends. You can also discover new cultures. Moreover, it may be useful for your studies. You need to speak a foreign language because everybody speaks English now and if you want to get the job of your dreams, you'll need to speak several languages to have more qualities than the other applicants.

So, I advise you to do your best to learn a foreign language; not only English because a lot of people speak English but also German or Spanish for example!

Now, if you find it difficult to learn English, Spanish or German in class, don't worry, there are others ways!

But first, I advise you to take your responsibility: make sure you are attentive in class, you should participate as much as you can and you had better learn your lessons regularly!

You can watch movies or series in their original language too (use the subtitles or not). You can play video games or surf the net (but not too much!) and you will learn vocabulary. If you want to improve your English or another language, you should read books and use a dictionary. Why not travel abroad and make friends? This way of learning will be the most pleasant and efficient!

**So, do your best in language classes, never give up... for your future!**
